

Test report: Click and grow

Overview		
Fun	★★★★★	
Geekiness	★★★★★	
Usefulness	★★★★★	
Installation	★★★★★	
Price-performance ratio	★★★★★	

Design & Hardware

- Design: simple, high-quality, functional
- Hardware: 2 LED, very low power consumption (0.7 W)

Features

- facilitates plant growing
- large water tank
- notes (to give names to the plants)
- additional app for growth control, watering reminder, tips & tricks, etc.

Suitability for daily use

- useful if you do not have a green thumb or if kitchen is not flooded with natural sunlight
- the small LED are brighter than our normal light bulbs, so we did not have to switch them on, if we went entered the kitchen for a short time (advantage and disadvantage)
- takes several weeks until the plants are ready to harvest

Pros & cons

- + easy to install/use
- + low power consumption
- very bright LED
